¹ Figures are subject to revision. ² On farms only. ³ Figures for the decennial census years 1881-1921 are for the next preceding years. In the Censuses of 1881 and 1891 values only were given of factory butter and cheese; quantities have been calculated by reckoning cheese at 10 cents per lb. and butter at 25 cents. ⁴ Data shown for 1942-46 represent cheddar and factory cheese other than cheddar in all provinces; prior to 1942 the figures include other cheese for Quebec only. ⁵ Prior to 1921 this item does not include skim milk and buttermilk.
