Table 3 gives statistics on a provincial basis for all public hospitals reporting to the Dominion Bureau of Statistics. Available facilities, the staff and the movement of populations are shown for the year 1945. For Canada as a whole, 588 such hospitals reported for that year. Of these, 498 were general public hospitals and 90 were other public hospitals. A total of 492 of the reporting hospitals were equipped with X-ray facilities, 309 reported clinical laboratories and 266 had physio-therapy facilities.

During the year the total patients under treatment reached 1,351,955 persons: there were 1,143,554 admissions and 1,272,455 discharges. Live births numbered 171,407 and deaths 39,804. Total collective days' stay amounted to 15,706,159. Total receipts for the year amounted to \$74,696,393 and expenditures \$74,059,491. The average cost for the entire Dominion per patient day was \$4.45.

\* A complete list of all hospitals in Canada, giving name, location, type and bed accommodation for 1945, is published by the Dominion Bureau of Statistics, Ottawa, Price 25 cents.
