Section 2.—Provincial Welfare Services*

Provincial health and welfare services are, in many instances, interrelated and administered by the same Provincial Departments. In view of this fact, it is sometimes difficult to set a definite demarcation between the two services. So far as possible, this Section deals with the well-being of the people with regard to social aid, child welfare, allowances and pensions for mothers and the aged and blind. Public health and related institutions are dealt with in Chapter VII, pp. 186-209.

* Revised by the Provincial authorities responsible for the administration of the various welfare services.
