**Index Numbers of Agricultural Prices.**—The series of index numbers of field crop prices, shown in Table 41, has been discontinued as of July 31, 1946; that table gives the last figures to be published. The new series, figures for which are given in Table 42, is much more complete in that it includes prices received by farmers for live stock and products, fruits, vegetables and several special crops such as honey, maple products, etc. To date, index numbers by months only are available; compilation of those by products is not yet complete.
