¹ Subject to revision.

Table 6 shows the different minerals that made up the mineral production of each province and also the particular province or provinces that contributed to the production of each mineral in Canada in 1945.

6.—Detailed Mineral Production, by Provinces, 1945

NOTE.—Quantities and values of minerals produced during 1945 in Yukon were—gold, 31,721 fine oz., \$1,221,258; silver, 25,158 fine oz., \$11,824; lead, 119,516 lb., \$5,976; total, \$1,239,058; and in the Northwest Territories—gold, 8,655 fine oz., \$333,218; silver, 2,033 fine oz., \$956; natural gas, 1,500 M cu. ft., \$335; petroleum, 345,171 bbl., \$136,303; total, \$470,812. Data for pitchblende products found in these areas are not available for publication. For the Dominion totals of individual minerals, see Table 2. Dashes in this table indicate that no production was recorded. The ton referred to is the short ton of 2,000 lb.
