Insurance took over the administration of the legislation concerning loan companies, the figures are not compared. They are shown, however, at pp. xl and xli of the 1938 Year Book. <sup>10</sup> Compiled from data supplied voluntarily to the Superintendent of Insurance by provincial companies but estimated to cover about 90 p.c. of all provincial business. The figures include all the large and most of the small provincial companies. <sup>11</sup> Not including fraternal insurance.
