<sup>1</sup> Other than Boston, Ellis Island and Philadelphia.  
N.B., Windsor, N.S., Dalhousie, N.S., Pointe du Chemin, Que., Rimouski, Que., Boucherville, Que.,  
Chatham, Ont., Uplands, Ont., and Alberni, B.C.

<sup>2</sup> Includes Charlottetown, P.E.I., Bathurst,  
N.B., Windsor, N.S., Dalhousie, N.S., Pointe du Chemin, Que., Rimouski, Que., Boucherville, Que.,  
Chatham, Ont., Uplands, Ont., and Alberni, B.C.

**Sex, Age and Marital Status.**—In 1947, for the first time since 1941, male immigrant arrivals in Canada numbered more than females. In 1946, females constituted 71 p.c. of total immigrant arrivals for that year; in 1947, the distribution was more even, male arrivals being 52 p.c., and females 48 p.c. Adult male arrivals showed an increase of 17,347 over the 1946 figure while female adults decreased by 16,031.

In 1946, over twice as many or 66 p.c. single males arrived in Canada as married males, but in 1947 the rate was 56 p.c. married and 41 p.c. single. Of total females in 1946, 71 p.c. were married and 25 p.c. were single; the percentages for married and single females in 1947 were 43 p.c. and 46 p.c., respectively.

In 1946, children under 18 years numbered 20,967 of total immigrants and 93 p.c. were under 15 years of age. Immigrant arrivals under 18 years in 1947 numbered 12,059 of total immigrants and of these 83 p.c. were under 15 years of age. These figures show that adult immigrants in the two years mentioned represented 71 p.c. and 81 p.c., respectively, of the total.
