Staff										
Organized medical staffs.....	2	23	16	55	79	12	32	20	23	262
Staff doctors.....	31	445	364	2,511	3,392	629	503	819	1,001	9,695

¹ In addition to these totals, there were the organized services and staffs of 28 hospitals which did not make returns on specific services. There were no organized services reported in Yukon and Northwest Territories hospitals.

Out-Patient Departments.—Out-patient departments are operated in connection with hospitals or other institutions, and treat patients who do not occupy beds in the hospital. The extension of out-patient services to patients of modest means has far-reaching and beneficial effects. It may replace admission to hospital, or may serve to secure necessary and beneficial hospitalization. As a general rule out-patient departments are subsidized from the funds of the general hospital and separate records are not kept. Until a uniform system of accounting is adopted, it will not be possible to give the average cost per patient.

5.—Out-Patient Departments of Public Hospitals, by Provinces, 1946

NOTE.—Figures of tuberculosis sanatoria and government and municipal clinics held in hospitals are not included.

Province	Out-Patient Departments	Patients	Treatments
New Brunswick.....	2	22,232	33,843
