NOTE.—The first two columns of this table represent values based on total production, the entire milk supply being accounted for in each case. The third column is the cost of milk delivered for fluid and for manufactured purposes; while the fourth column represents the income received from the sale of milk, butterfat and dairy butter. Figures for the years 1921-41 are given at p. 21 of the report "Dairying Statistics of Canada, 1947"; for the years 1939-41 at p. 241 of the 1946 Year Book.
