¹ Includes cusk.

² Includes quahaugs.

³ Livers only were landed on the Pacific Coast.

⁴ Less than 0.1 p.c.

⁵ Totals include minor items not specified.

⁶ Since ling cod was included with

cod for 1926, the average of the years 1927-30 was taken as the quantity of ling cod for 1926 and this was deducted from the quantity of cod reported for 1926, the resulting amount being used as the base for the volume index.

⁷ Indexes are not given in this case since no production was recorded for the base year.
