## Section 6.—Manufacturing Industries in Urban Centres

The prosperity of most of the cities and towns of Canada, especially in the east, is intimately connected with their manufacturing industries, which provide employment for a large proportion of their gainfully occupied population. In the west the cities are more largely distributing centres, though manufactures are rapidly increasing there.

## 8.—Cities and Towns Each with a Gross Manufacturing Production of Over \$1,000,000, Number of Establishments and Total Production in such Urban Centres as a Percentage of the Grand Total, by Provinces, 1945.

NOTE.—Statistics published in this table are in some cases higher than the figures published in Table 10, since, in the table below are included statistics of towns with less than three establishments and production of over \$1,000,000 each. It was not possible to publish this information, except in summary form, in Table 10 without disclosing the operations of individual establishments.

| Province                           | Urban Centres with a Gross Production of over \$1,000,000 each | Establishments Reporting in Urban Centres Producing over \$1,000,000 each | Total Production in Urban Centres Producing over \$1,000,000 each | Total Production in each Province | Production in Urban Centres as a Percentage of Total Production in each Province |
