### PART IX.—THE PRESS

The tables of this Part, based on data obtained from *Canadian Advertising* have now been carried back to the latest complete pre-war year, viz., 1938, and are presented on pp. 788-793.

One serious difficulty has been encountered in connection with the compilation of circulation figures. In the case of daily newspapers, reliable circulation figures are relatively easy to obtain since in their own best interest, such papers qualify for and subscribe to the Audit Bureau of Circulation's requirements. In such cases A.B.C. 'net paid' figures have been used.
