

The Census of 1941 shows that less than 1 p.c. of the total Canadian-born and other British-born population had lost their Canadian citizenship through renunciation or marriage.

Over 80 p.c. of the United States-born persons in Canada, who form 2.7 p.c. of the total population, had become Canadian citizens together with 74.7 p.c. of the Continental European-born; of those born in Asiatic countries 72.7 p.c. remained aliens. Of the total population, only 2.4 p.c. were aliens.

Section 8.—Languages and Mother Tongues

Statistics under this heading for the 1941 Census are given at pp. 122-123 of the 1947 Year Book.

Section 9.—School Attendance

Statistics under this heading for the 1941 Census will be found at p. 138 of the 1943-44 Year Book.

Section 10.—Blind and Deaf-Mutes

Statistics regarding blind and deaf-mutes are given at p. 126 of the 1945 Year Book and in greater detail in Vol. IV of the 1941 Census.

Section 11.—Occupations

Figures for Canada, excluding Yukon and the Northwest Territories, show that 3,676,563 males and 833,972 females, 14 years or over, or a total of 4,510,535 persons, including members of the Armed Forces, were gainfully occupied at the time of the 1941 Census. Males represented 81.5 p.c. and females 18.5 p.c. of the total gainfully occupied. The population of the nine provinces consisted of 5,890,683 males and 5,599,030 females or a total of 11,489,713 persons. The gainfully occupied, therefore, accounted for 39.3 p.c. of the total population; gainfully occupied males representing 62.4 p.c. of the total male population and gainfully occupied females 14.9 p.c. of the total female population.

Summary tables of the occupations of the Canadian people for the 1941 Census are given at pp. 1062-1073 of the 1943-44 Year Book and at pp. 160-161 of the 1948-49 edition.

Section 12.—Dwellings, Households and Families

Summary data on buildings, dwellings, households and families as at the date of the 1941 Census are given at pp. 120-126 of the 1946 Year Book, pp. 126-127 of the 1947 Year Book, and pp. 161-162 of the 1948-49 edition.

Estimates of Households and Families, 1947-48.—The statistics on households and families in 1947 and 1948, as shown in Table 11 are derived from the data collected in conjunction with the 2 p.c. sample survey of the labour force for June, 1947 and 1948. It should be noted that the survey covers the total non-institutional civilian population of Canada (exclusive of Yukon and the Northwest Territories), with the exception of a small unsampled population in the northern areas of certain provinces. However, the figures in the table include estimates for the unsampled areas.
