<sup>1</sup> The following 16 hospitals did not report for 1947: General: Que. 1; Sask., 5; Alta., 5; Women's: Sask., 2; Children's: Sask., 1; Contagious Diseases: N.S., 1; Alta., 1.

**Organized Services in Public General Hospitals.**—Organized services, which are analysed in Table 5, may be defined as specialized hospital departments or services in charge of specialists with up-to-date equipment and a technical staff specially devoted to problems in the indicated fields. Facilities available in a hospital merely for the use of general practitioners are not considered as organized services. Organized services in public general hospitals only are considered here but it is in these hospitals that the majority of such services are found. Many of the smaller public general hospitals have facilities for study and treatment in the fields indicated, but since they are not organized services as defined above, such facilities are not included in the figures. In 1947, of the 653 public hospitals, 291 had organized medical staffs with 11,031 staff doctors.

## 5.—Organized Services and Medical Staffs in Reporting Public General Hospitals, by Provinces, 1947

NOTE.—A dash in this table means that an organized service was not reported.

Service and Staff	P.E.I.	N.S.	N.B.	Que.	Ont.	Man.	Sask.	Alta.	B.C.	Totals <sup>1</sup>
<b>Service</b>										
General medicine.....	3	9	16	62	53	11	19	21	19	213
