Butter Production.—The total butter production in 1948 amounted to 347,274,000 lb. This was an increase of 27,000 lb. over 1947, but a decrease of 21,226,000 lb. as compared with the high point of 368,500,000 lb. in 1941. The production of creamery butter in 1948 amounted to 284,431,000 lb., representing a decline of 6,521,000 lb. from 1947. This was more than offset by an increase in the estimated dairy-butter make.
