Subsection 9.—Special Agricultural Crops

Maple Sugar and Syrup.—Production of maple sugar and maple syrup is confined to the provinces of Nova Scotia, New Brunswick, Quebec and Ontario. The bulk of the crop comes from the Eastern Townships area of Quebec which is famous both in Canada and the United States as the centre of the maple industry. Usually most of the exports, which go chiefly to the United States, are in the form of sugar but during the 1947-48 season syrup shipments reached an all time high of 403,000 gal. Sugar shipments that season were equivalent to 463,000 gal. of syrup. During 1948-49 exports of syrup remained at the comparatively high level of 368,000 gal. Sugar exports, on the other hand, increased substantially to 5,826,000 lb. The exports of sugar, expressed in terms of syrup, equalled 583,000 gal.

34.—Estimated Quantities and Values of Maple Sugar and Maple Syrup Produced in Canada, 1943-48, and by Provinces, 1946-48
