

## Section 2.—Total Foreign Trade\*

In considering the figures in the following tables, reference should be made to the explanatory notes on trade in Section 1. It must be emphasized that gold imports and exports are excluded from all tables. Imports from the United Kingdom from 1940 to 1946 are distorted by the inclusion of large amounts of non-commercial items in the trade returns (see p. 904). United Kingdom figures can be viewed in a proper perspective only if these non-commercial items are excluded from the recorded import statistics.

The trade of Canada for the period 1919-48 is shown in Table 1.

NOTE.—These figures are available on a calendar-year basis only since 1919; figures for the fiscal years 1868-1919 are given in the 1940 edition of the Year Book, p. 526.
