¹ Includes the gold subscription of \$74,000,000 to the International Monetary Fund as it reduced official reserves. ² This represents gold and United States dollars received from the United Kingdom in part settlement of her deficiency with Canada and used, in turn, to settle part of Canada's deficiency with the United States. ³ Reflects errors and omissions of certain factors that cannot be measured statistically. ⁴ Includes \$280,000,000 special payments to United States Treasury.

Section 2.—Tourist Trade Statistics

The tourist trade continues as an important invisible item in Canada's balance of international payments as shown in the tables at pp. 950-952. Being one of the nation's great service industries, it represents in economic terms the desire on the part of residents of other countries to experience more of Canada's scenic beauty, the invigorating climate, religious shrines and places of historical interest. To maintain this interest large capital expenditures have been made on hotel accommodation,
