¹ Exclusive of Newfoundland.

Under the Meat and Canned Goods Act, establishments such as abattoirs and meat-packing plants that prepare meat products for export are subject to inspection. Local wholesale butchering and such slaughterings as are carried out by retail butchers and by farmers for their own use are not included in Table 20. Actually, the slaughtering and meat-packing industry has been concentrated into a comparatively small number of large establishments to facilitate greater efficiency and utilization of products. Thus the above figures are fairly inclusive. The slaughtering and meat-packing industry is dealt with in its proper relation to all other manufacturing enterprises in Chapter XVII. On a gross value basis it normally ranks among the three largest manufacturing industries in Canada but it owes its importance to the value of raw products obtained from the farmer and rancher rather than to the value added by the manufacturing process.
