Subsection 2.—Manufactures Classified on the Standard Classification Basis

To provide information of maximum usefulness and to allow for a direct comparison of statistics collected by many government departments and agencies, an interdepartmental committee was set up in 1945 to review the different systems of classification in use and to recommend a standard classification to be used by all government departments in their statistical compilations.

Tables 9 and 10 give statistics for 1946 and 1947 of the manufacturing industries on the standard classification basis recommended by the committee. This classification conforms in large measure to that now recommended by the United Nations Statistical Commission.

9.—Principal Statistics of Manufacturing Industries, Classified on the Standard Classification Basis, 1946 and 1947

Note.—Comparable figures for 1945 are given at p. 604 of the 1948-49 Year Book.

Year and Group	Estab- lish- ments	Em- ployees	Salaries and Wages	Cost of Materials	Net Value of Products	Gross Value of Products
