

CBC had 19 stations, 8 of which had 50,000-watt transmitters. During 1950 CBC increased the power of CBM Montreal from 5,000 to 50,000 watts, and of CBR Vancouver from 5,000 to 10,000 watts; also a new 10,000-watt station, CBE, was established at Windsor, Ont. In order to present programs at suitable times, and to give expression to varying interests in the six regions, CBC maintains regional offices and production facilities at St. John's, Nfld.; Halifax, N.S.; Chicoutimi, Quebec City and Montreal, Que.; Ottawa and Toronto, Ont.; Winnipeg, Man.; Edmonton, Alta.; and Vancouver, B.C.

5.—Broadcasting Stations of CBC Networks, as at July 15, 1950

NOTE.—The stations marked with an asterisk (*) are CBC-owned.
