Subsection 4.—General Warehousing

Public Warehouses.—The Dominion Bureau of Statistics began, in 1944, an annual census of the principal public warehouses in Canada. Warehousing carried on by co-operatives, packing houses and other firms operating storage facilities in connection with their own businesses are not included. Several companies deriving more revenue from a moving, cartage or carrier business than from warehousing are also not included but are covered in the report "Motor Carriers, Freight-Passenger, 1948". In order to show the trend in the industry, Table 13 has been prepared from data supplied by 112 firms which reported for both 1947 and 1948. Further details are given in the report "Warehousing, 1948", published by the Dominion Bureau of Statistics.
