Marine insurance showed a very large increase in Canada during the war years and substantial profits resulted. The results for the years 1941 to 1948, inclusive, were as follows:—

| Year | Premiums   | Claims<br>Incurred | Under-<br>writing<br>Profits |
|------|------------|--------------------|------------------------------|
|      | \$         | \$                 | \$                           |
| 1941 | 6,011,922  | 2,781,190          | 1,694,470                    |
| 1942 | 14,295,543 | 7,983,963          | 3,855,415                    |
| 1943 | 10,061,059 | 4,931,286          | 3,449,873                    |
| 1944 | 6,754,361  | 2,172,418          | 3,243,889                    |
| 1945 | 5,978,274  | 2,995,704          | 1,704,367                    |
| 1946 | 5,655,392  | 2,232,701          | 2,084,412                    |
| 1947 | 7,932,404  | 4,529,161          | 1,031,313                    |
| 1948 | 7,986,658  | 3,468,045          | 2,466,397                    |

This class of insurance will, no doubt, continue to figure more largely in the business of companies in post-war years than it did before 1939.

## 26.—Casualty Insurance in Canada, by Companies operating under Dominion Registration, 1948

<sup>1</sup>Sprinkler leakage business of fire companies was grouped with fire business from 1923 to 1940, but has been shown separately from their fire business since 1940 when written under a separate policy.
