

The chief aims of the Dominion Bureau of Statistics are: (1) to furnish factual data for administration and government; (2) to assist in developing Canada as a well-informed nation by standing ready to help business men and individuals to plan their enterprises and their lives.

Inquiries.—Hundreds of individual requests for information are received in the Bureau each day, routed through the appropriate divisions and answered as expeditiously as possible. Since the field of effort, from the statistical side, deals with all phases of the national economy, there is scarcely a subject upon which the Bureau is not able to give some information. Nevertheless, only inquiries of a statistical nature should be directed to the Dominion Bureau of Statistics.

Publications.—The Dominion Bureau of Statistics is the largest publishing Department of the Federal Government: the subjects of its reports cover all aspects of the national economy.

The policy with regard to the distribution of publications is to extend the service to the public as widely as possible at a minimum cost. A special subscription rate of \$30 per annum entitles the subscriber to receive a copy of each publication, including the daily News Bulletin, as issued. Statistical information not of general interest is published as Reference Papers or Memoranda and an additional subscription rate of \$10 is made for each category: this entitles the subscriber to receive all issues in each class. A discount of 25 p.c. is allowed on the excess over \$5 of single purchases totalling between \$5 and \$20: on single purchases of between \$20 and \$50 the discount is 50 p.c. of the excess over \$20.

A complete list of Bureau publications is available from the Dominion Statistician. Orders for reports should be sent to the Dominion Bureau of Statistics, Ottawa, and should give the correct title or titles of the publication or series of reports in which the applicant is interested and include the necessary remittance in the form of a cheque or money-order made payable to the Receiver General of Canada.

Information Division, Department of External Affairs.—The Information Division has two functions: to promote within Canada interest in and knowledge of international affairs, and to make Canada and Canadian policies better known and understood abroad.

To perform the first function, the Division produces and distributes various documents on external affairs—statements of government policy and reports on related developments abroad and on the work of the Department generally. The Division also answers routine inquiries from Canadian sources on these subjects, as well as requests for information about Canada made by Diplomatic Missions at Ottawa, by Canadian posts abroad, and by individuals and organizations in other countries.

Most of the information work abroad is done, however, by heads of Canadian posts and their staffs. These the Information Division assists by formulating and advising on information policy abroad, in an effort to ensure that this policy is related to the general objectives of Canadian foreign policy, and by producing and procuring material to keep Missions informed of developments within Canada. Journalists and others who visit Canada to write about it are from time to time given non-financial assistance by the Division; its responsibilities also include the co-ordination of the Government's activities in the field of cultural relations.
