Stocks of Grain in Canada.—Table 18 shows the stocks of Canadian grain on hand on July 31 for the years 1945-51, with averages for the five-year periods 1935-39 and 1940-44, in both Canada and the United States, also the amounts held on farms in Canada. Farm stocks are given for Canada and the Prairie Provinces separately, while an additional column indicates the amounts held in country elevators in the Prairie Provinces.
