<b>Totals .....</b>	<b>19,139,112</b>	<b>18,586,823</b>	<b>394,961</b>	<b>304,918</b>	<b>27,060,579</b>	<b>26,351,189</b>	<b>45,804,730</b>	<b>44,633,094<sup>2</sup></b>

<sup>1</sup> Coal reaching Canadian ports whether or not it is cleared through customs. <sup>2</sup> Lignite coal included with bituminous. <sup>3</sup> Excludes 168,224 tons of imported briquettes in 1950 and 134,928 tons in 1951.

**Crude Petroleum Production.**—Output of crude oil totalled over 48,000,000 barrels for Canada in 1951, 96 p.c. of which came from Alberta wells. The rapid expansion of the crude petroleum industry in Western Canada is outlined in the Special Article on pp. 524-527.

**24.—Quantities and Values of Crude Petroleum Produced, by Provinces, 1942-51**

NOTE.—Figures for the years 1936-41 will be found at p. 476 of the 1948-49 edition of the Year Book.

Year	New Brunswick	Ontario	Alberta	Saskatchewan	Northwest Territories	Canada

1951 <sup>p</sup> .....	21,000	706,000	118,634,350	1,562,000	404,200	121,407,550 <sup>1</sup>

<sup>1</sup> Includes Manitoba production of 12,000 bbl. valued at \$30,000.

**Natural Gas Production.**—Alberta accounts for about 87 p.c. of Canada's production of natural gas. It is estimated that the total output for all provinces was almost 74,000,000,000 cu. ft. in 1951, of which 64,000,000,000 cu. ft. was from Alberta's wells. Ontario's production amounted to almost 9,000,000,000 cu. ft. in 1951. (See also pp. 480-481.)
