<sup>1</sup> Includes: biscuits; and tobacco, cigars and cigarettes. <sup>2</sup> Includes: bags, cotton and jute; fertilizers; slaughtering and meat packing. <sup>3</sup> Not comparable with previous years. <sup>4</sup> Includes: cotton yarn and cloth; wire and wire goods; coke and gas; petroleum products; and breweries. <sup>5</sup> Includes: breweries; sugar refineries; cotton yarn and cloth; synthetic textiles and silk; railway rolling-stock; shipbuilding and repairs; brooms, brushes and mops; brass and copper products; and gypsum products.

Subsection 2.—The Manufactures of Quebec

Quebec contributes about 30 p.c. of the total value of manufactured products of Canada. Quebec's forests, water powers, minerals and agricultural lands, and also its geographic position astride the St. Lawrence estuary permitting sea-going vessels to reach its main centres of population, are among the assets that have tended to develop manufacturing industries. In addition, Quebec has a stable and industrious population, an important factor in industries such as textiles, clothing, leather boots and shoes, etc., in which large labour forces are required. The production of pulp and paper occupies the premier position, accounting for about 10 p.c. of the gross value of Quebec manufactures and for about 45 p.c. of the Canadian total for this industry. Other large industries in which Quebec predominates are: tobacco, cigars and cigarettes with 92 p.c. of the Canadian total; synthetic textiles and silk 72 p.c.; cotton yarn and cloth 66 p.c.; women's factory clothing 65 p.c.; aircraft and parts 64 p.c.; leather boots and shoes 60 p.c.; men's factory clothing 57 p.c.; miscellaneous electrical apparatus 51 p.c.; railway rolling-stock 49 p.c.; and pulp and paper 45 p.c.

Quebec also predominates in a large number of the smaller industries. For instance, the candle industry of Quebec contributed 95 p.c. of the Canadian total; men's clothing contractors 89 p.c.; women's clothing contractors 82 p.c.; cotton thread 81 p.c.; lasts, trees and shoe findings 78 p.c.; children's clothing 76 p.c.; dyeing and finishing of textiles 75 p.c.; oiled and waterproofed clothing 74 p.c.; oilcloth, linoleum and other coated fabrics 73 p.c.; narrow fabrics 73 p.c.; leather boot and shoe findings 72 p.c.; embroidery, pleating and hemstitching 71 p.c.; miscellaneous clothing 69 p.c.; asbestos products 67 p.c.; artificial flowers and feathers 67 p.c.; processed cheese 67 p.c.; fur dressing and dyeing 66 p.c.; and fabric gloves and mittens 66 p.c.
