Table 9 shows the freight and passengers carried by motor-carriers in 1948 and 1949. Traffic data were not available for the majority of the small operators. Many truck operators failed to report tons of freight carried and others reported only estimates; consequently, these data are not complete. A difficulty in compiling weights is that much traffic is carried on a load or package basis and not on a weight basis. Records of passengers appear to be fairly complete, possibly because tickets are sold and accounted for, and the unit is not so complex as for freight carried.

9.—Traffic Carried by Motor-Carriers, 1948 and 1949
