The larger metropolitan dailies, especially those of Montreal, Que., and Toronto, Ont., have built up considerable circulation in areas outside their own cities. This is especially true since rapid freight transport by highway and latterly by air has become more common. For instance, Montreal and Toronto morning papers (printed late the previous evening) can now be transported to Ottawa and delivered along the morning routes in competition with the local morning papers. Since these large metropolitan dailies can command exclusive feature services that the dailies of the smaller cities cannot afford, it often places them in an advantageous position in competition with the local dailies.

Weekly Newspapers.*—Weekly newspapers circulate within relatively restricted areas around their publication centres. These cater to a limited local interest but, within the areas they serve, they exercise an important influence. Canada is well served by foreign-language weekly newspapers. In 1951, they had a stated circulation of 215,354 copies, among which Ukrainian papers had a circulation of 67,179 copies, Yiddish 28,465, German 30,620, and Polish 23,656 copies.

Other Publications and Periodicals.—Table 6 gives the number of publications, other than newspapers, published in Canada. Monthly and weekly magazines and periodicals enjoy the largest circulation while those dealing with home, social and welfare, agricultural and rural topics, and religious, trade, industry and related subjects are the most popular types.

* Including a very few semi- and tri-weekly newspapers.
