

Subsection 2.—Operational Statistics of Registered Life Insurance Companies

The net life insurance in force, in all companies with Federal registration, was only \$35,680,082 in 1869 while in 1951 it was \$17,235,376,811.* The amount per capita of the estimated population of Canada has more than doubled since 1940—evidence of the general recognition of the value of life insurance for the adequate protection of dependants against misfortune. Notable also is the fact that in this field British companies, the leaders in 1869, have fallen far behind Canadian and foreign companies.

13.—Life Insurance in Force and Effected in Canada by Companies operating under Federal Government Registration (Fraternal Insurance Excluded),¹ 1880-1951

NOTE.—Figures for the years 1869-99 are given at p. 958 of the 1938 Year Book, and for the years 1901-39 at p. 855 of the 1942 edition.

Year	Net Amount in Force				Insurance in Force per Capita of Estimated Population ²	Net Amount of New Insurance Effected during Year
	Canadian Companies	British Companies	Foreign Companies	Total		
	\$	\$	\$	\$	\$	\$
1880.....	37,838,518	19,789,863	33,643,745	91,272,126	21.45	13,906,887

¹ For statistics of fraternal insurance, see pp. 1148-1150. at p. 143.

² Based on estimates of population given

Life insurance business was transacted in Canada, during 1951, by 58 active companies with Federal registration, including 31 Canadian, 5 British and 22 foreign companies; one of these foreign companies was registered for the acceptance of reinsurance only. In addition to these active companies, there were 7 British and 3 foreign companies writing little or no new insurance, their business being confined largely to the policies already on their books, and one foreign company which was registered in 1951 but which, during that year, wrote no business in Canada.

The operations analysed in the tables of this Subsection, with the exception of Table 17, cover only those companies with Federal registration and are exclusive of fraternal organizations and provincial licensees. However, as indicated in Table 12, these companies' operations cover over 94 p.c. of the life insurance in force in Canada.

* This total does not include fraternal insurance.
