

a provincial basis from Federal Government stations located within particular provinces. In agriculture, for instance, data on the breeding of live stock and the improvement of strains, on agricultural marketing and crop yields are cases in point; in forestry, questions of forest research, forest fire protection and reforestation offer good examples. Where inquiries are directed to federal sources, they should, as a general rule, be sent to the individual departments listed in the Directory for information not of a statistical nature; in the case of statistical information inquiries should be addressed to the Dominion Bureau of Statistics, Ottawa.

Bearing these points in mind, the reader will be able to apply the information given in the Directory to best advantage.

The Queen's Printer and Controller of Stationery, Ottawa, charged, under the Public Printing and Stationery Act, with responsibility for the sale and free distribution of government publications, issues a Monthly Catalogue of all Federal Government publications, regular selected titles, bulletins and library check lists. The Monthly Catalogue, including the price list, is consolidated annually, classified on a departmental basis adequately indexed and cross-referenced, and is obtainable on application at \$3.00 a year. The Supervisor of Government Publications, Ottawa, also publishes subject catalogues and special bulletins advertising new government publications. The titles of some publications produced for free distribution only, and obtainable from the issuing federal departments, are listed in the Monthly Catalogue published by the Queen's Printer. Lists of publications are often available, too, from the individual Departments.

Most provincial government printed publications may be obtained from the Queen's Printer of the Province concerned. Inquiries should be addressed to the provincial capital cities:—
