Provincial Parks.—In addition to the National Parks already described, most of the provinces have established Provincial Parks. These Parks, as in the case of the National Parks, are areas of great scenic or other interest maintained for the benefit of the public. The Provincial Parks are administered by the Provincial Governments concerned and, in most cases, have not yet reached the degree of development that marks the National Parks. In Prince Edward Island, Nova Scotia and New Brunswick there are no Provincial Parks. In Manitoba, provincial park development is carried out in certain of the province's forest reserves, particularly in Whiteshell Reserve and Cormorant Reserve.

5.-Location, Year Established, Area and Characteristics of Provincial Parks

Province and Park	Location	Year Estab- lished	Area	Characteristics
			acres	
Newfoundland— Serpentine	South of Humber Arm, west coast.	1939	26,880	Undeveloped.
