¹ Census taken by Newfoundland Government in 1945; 1941 figure not available.

For census purposes, metropolitan areas have been established for groups of urban communities that are in close economic, geographic and social relationship. The total population of each of the census metropolitan areas in 1951, with the comparable figure from the 1941 Census covering the same area as 1951, is shown in Table 5. In this table the metropolitan area has been named after the largest city of each urban group.
