

Subsection 2.—Municipal Taxation

Table 44 shows, by province, the taxes levied by municipalities in the years 1947-51 and the total taxes outstanding at the end of those years. Although these figures are as nearly comparable as existing published reports permit, nevertheless they still reflect some inconsistencies owing particularly to intra-provincial variations in the division of responsibility for tax administration between municipalities and school authorities. In some instances, school taxes are not included in the municipal levies.
