

**Breaches of Traffic Regulations.**—Each year breaches of traffic regulations constitute a greater proportion of the total convictions for non-indictable offences. In 1952 they amounted to 83.7 p.c., an increase of 23.1 p.c. over 1951, which alone would account for the increase in summary convictions; 98.7 p.c. of them were offences under provincial highway traffic Acts and municipal by-laws.

**17.—Convictions for Breaches of Traffic Regulations, by Province, Years Ended Sept. 30, 1943-50, and Dec. 31, 1951-52**

NOTE.—See headnote to Table 15, p. 309.

For the year 1952, Ontario, with 40.9 p.c. of the registrations of motor-vehicles in Canada, had 54.5 p.c. of the total convictions for breaches of traffic regulations; Quebec in the same year had 18.2 p.c. of the motor-vehicles and 20.4 p.c. of the convictions. In interpreting the figures in this way, however, it should be pointed out that traffic regulations are by no means uniform throughout Canada and no account is taken of the differences in the degrees of urbanization in the provinces. These two provinces have large urban centres, but in provinces with lower degrees of urbanization, such as the Atlantic Provinces, Saskatchewan and Alberta, convictions are lower when considered in proportion to the number of motor-vehicles registered.

**Convictions for Drunkenness and Offences against the Liquor Acts.**—In considering these convictions, it should be noted that the same person may and often does appear before the courts on such charges more than once within a year and that the number of convictions may thus be well above the number of persons convicted.

**18.—Convictions for Drunkenness, by Province, Years Ended Sept. 30, 1943-50, and Dec. 31, 1951-52**

NOTE.—See headnote to Table 15, p. 309.
