¹ Includes all institutions operated by the Provincial Division of Tuberculosis Control.

Federal Government Hospitals.—Under the terms of the British North America Act health and welfare is the special responsibility of the provinces. Nevertheless the Federal Government is responsible for the health of certain groups such as war veterans and members of the Armed Forces, newly arrived immigrants, Indians and Eskimos, and lepers. The Federal hospitals are administered by three departments of government: in 1953 the Department of Veterans Affairs administered 19; the Department of National Defence, 9; the Department of National Health and Welfare's Indian Health Service, 18; and the Department of National Health and Welfare's Quarantine and Sick Mariners' Service, 10.

Table 20 gives summary statistics of these hospitals for 1953.
