**Maple Sugar and Syrup.**—Maple syrup is produced in the Provinces of Nova Scotia, New Brunswick, Quebec and Ontario. The bulk of the crop comes from the Eastern Townships of Quebec, a district famous both in Canada and the United States as the centre of the maple products industry. Virtually all of the maple products exported are sent to the United States with the larger proportion moving as sugar, although substantial quantities of syrup are also shipped.

Much of the syrup sold in Canada is marketed in one gallon cans direct to the consumer from the producer but a considerable amount of both sugar and syrup is sold each year to processing firms.

## 38.—Estimated Production of Maple Sugar and Maple Syrup by Province 1950-54 and Average for 1945-49

| Province and Year        | Maple Sugar |                       |         | Maple Syrup |                        |            | Total Value, Sugar and Syrup |
