

The Federal Government established a system of university grants for current operating purposes, the first of which were paid during the academic year ended 1952. The grants were paid on the basis of 50 cents per head of population in each province, the eligible institutions receiving their shares of the total provincial allotment according to the number of full-time students at university level attending degree or graduate diploma courses. For 1956-57 and 1957-58 the payment was \$1 per head of population and for 1958-59 it was increased to \$1.50 per head of population. The distribution of payments, by province, is shown in Table 15.

15.—Federal Government Grants to Universities, by Province, Academic Years Ended 1952-58

Province and Academic Year Ended—	Institutions	Eligible Enrolment	Total Grants ¹	Grant per Eligible Student	
	No.	No.	\$	\$
