¹ See text on p. 356 for basis of grant. ² Institutions in Quebec accepted payment only in 1951-52, refusing from 1952-53 to 1955-56. For 1956-57, and subsequent years, payments refused will be held in trust by the National Conference of Canadian Universities until the institutions see fit to accept them. In 1957-58, one institution accepted the grant.

During the 1956-57 academic year, plans were announced by the Federal Government for the distribution of \$50,000,000 to Canadian universities and colleges for new construction and capital equipment projects. The grants are made in an amount not exceeding 50 p.c. of the cost of specific building or capital equipment projects, with appropriate regard to the population of each province. The University Capital Grants Fund is administered by the Canada Council, which came into existence on Mar. 28, 1957. Up to Mar. 31, 1958, 12 institutions received a total of \$4,084,300 in capital grants. The Council was also endowed with an additional \$50,000,000 for the provision of scholarships and other assistance in the fields of the arts, humanities and social sciences. (See pp. 363-365.)
