¹ Includes other types not specified.

Sugar Beets and Beetroot Sugar.—Sugar beets are grown commercially in Quebec, Ontario, Manitoba and Alberta and beet sugar factories are located in these provinces. In Quebec, commercial production centres in the St. Hilaire area of the Eastern Townships, where operations started in 1944. The sugar beet industry of Ontario is largely confined to the southwestern section of the province and factories are located at Wallaceburg and Chatham.

Processing of sugar beets in Manitoba began in 1940. In Alberta, where the industry has shown steady growth, sugar beets are produced under irrigation with yields averaging above those received in the other provinces.

34.—Acreage, Yield and Value of Sugar Beets and Quantity and Value of Refined Beetroot Sugar Produced 1954-57, with Average for 1949-53
