

Not all industries shared in the advance since 1949. Fish processing showed a loss of 8.4 p.c. in value of shipments, sawmills a drop of 4.9 p.c., and shipbuilding a drop of 4.2 p.c. Most of the leading industries with shipments of \$10,000,000 or more, however, reported increases. The greatest gain of 97.4 p.c. was reported by the railway rolling-stock industry, followed by primary iron and steel with 17.8 p.c. and pulp and paper with 7.5 p.c. A notable feature of the 1956 manufacturing operations in the Atlantic Provinces was the expansion in the petroleum products industry in Nova Scotia, with a value of shipments almost double that of the previous year.
