<sup>1</sup> Includes Yukon but excludes Northwest Territories.

<sup>2</sup> Includes cases where type was not specified.

<sup>3</sup> Includes cases of streptococcal sore throat.

<sup>4</sup> Less than 0.05 per 100,000 population.

**Illness in the Federal Civil Service.**—A study of the incidence and duration of illness among federal civil servants is made annually from data supplied by medical certificates, which are required for all absences of more than three days at one time and for
