In addition to the monthly data published on the operation of the Unemployment Insurance Act, annual tabulations are published of the persons employed in insurable employment and of benefit periods established and terminated. The data on the insured population in Table 26 were obtained from returns from the renewal of insurance books and contribution cards at May 1, 1957 and June 1, 1958. Included are persons contributing in insurable employment on those dates and persons on claim. The number insured at June 1, 1958 increased by 247,770 from the previous book renewal to 4,055,090. Unemployment insurance was extended to fishermen on Apr. 1, 1957. This coverage change is interesting since the majority of commercial fishermen in Canada are not wageearners but sharesmen or lone workers. It was decided to treat as the 'employer' the person who first acquires the catch from the person who does the actual fishing. In some instances this is his actual employer, in others it is the buyer of the catch, and in still others it is the person or organization that markets the catch for the fisherman or makes contributions to the Fund. Fishermen were not considered for benefit until the 1957-58 seasonal benefit period.

26.—Persons Insured under the Unemployment Insurance Act, by Industrial Group and Sex, 1957 and 1958

Note. -- Based on a 10-p.c. sample of contributors and claimants at May 1, 1957 and June 1, 1958.
