## 26.—Persons Insured under the Unemployment Insurance Act, by Industrial Group and Sex, 1957 and 1958—concluded

Table 27 distributes by province persons establishing regular benefit periods, regular benefit periods terminated, average weeks paid and average dollar benefit paid on these terminations. A claimant establishes a *regular benefit period* when he submits his claim in the prescribed manner and proves he has fulfilled the minimum contribution requirements. The duration of benefit authorized, the weekly rate authorized and total entitlement are then calculated and the claimant's benefit may be drawn upon during successive intervals of unemployment. His benefit period terminates when either he has exhausted the amount authorized or when 12 months have elapsed since he established, whichever comes first. The number establishing benefit periods in 1958 increased by 5,312 from 1,086,172 to 1,091,484. The duration of paid benefit in 1958 averaged 14.3 weeks, compared with 12.0 weeks in 1957. Ordinary benefit paid averaged \$313.87 on terminations in 1958, up from \$256.26 on terminations in 1957.

## 27.—Persons Establishing Regular Benefit Periods, Benefit Periods Terminated, and Duration and Amount of Benefit Paid, by Province, 1957 and 1958

Note.—Based on a 25-p.c. san	ple.
