

These companies operate to stations in the United Kingdom, Ireland, the United States, the Azores and St. Pierre and Miquelon Islands. The Eastern Telephone and Telegraph Company owns and maintains radio relay and cable facilities between Nova Scotia and Newfoundland. The number of cables operating between connected stations and the length of cables are given in the following table.

## 7.—Cable Landings in Canada, 1958

Company and Station	Cables	Nautical Miles
	No.	No.
<b>Canadian Overseas Telecommunication Corporation—</b>		
Halifax, N.S. to St. John's, Nfld.	1	667
Bamfield, B.C. to Port Alberni, B.C.	1	30
North Sydney, N.S. via Nfld. to Oban, Scotland	1	2,280
Bamfield, B.C. to Auckland, New Zealand	1	6,748
Bamfield, B.C. to Sydney, Australia	1	7,830
Halifax, N.S. to Bermuda	1	874
Halifax, N.S. to Porthcurno, England	1	3,078
St. John's, Nfld. to Porthcurno, England	1	1,989
<b>Commercial Cable Company—</b>		
Canso, N.S. to St. John's, Nfld.	2	913
Canso, N.S. to Far Rockaway, N.Y., U.S.A.	3	2,890

Canso, N.S. to Duxbury, Mass., U.S.A.	1	577
Bay Roberts, Nfld. to Penzance, England	4	8,479
Bay Roberts, Nfld. to Horta, Azores	1	1,343
Bay Roberts, Nfld. to Hammel, N.Y., U.S.A.	2	2,778
Heart's Content, Nfld. to Valentia, Ireland	3	5,656

<sup>1</sup> One cable not operating.

## Subsection 5.—Federal Government Telegraph and Telephone Services and Meteorological Communications

**Telegraph and Telephone Services.**—The Telecommunications and Electronics Branch of the Department of Transport provides a telephone service to some communities on Cape Breton Island and, by submarine cable, to certain islands off the Atlantic Coast of Nova Scotia; telephone and telegraph services on the Magdalen Islands; and a telegraph service to a few isolated places in Labrador.

As of Mar. 31, 1960, these services comprised 346.44 miles of pole line, 818.8 miles of open wire, 77.18 miles of aerial cable, 30.3 miles of submarine cable, and seven radiotelephone stations. Telephone service was provided for 1,583 subscribers, of whom 331 were served through lines connected with private company exchanges.

**Meteorological Communications.**—Weather stations operated by the Meteorological Branch of the Department of Transport throughout Canada are linked coast-to-coast by means of teletype and in the remote northern areas by radio or radioteletype. The
