### Section 2.—Fire and Casualty Insurance

At the end of 1959 there were 286 companies registered by the Federal Government to transact fire insurance in Canada (84 Canadian, 85 British and 117 foreign). Of these companies, 277 (78 Canadian, 85 British and 114 foreign) were also registered to transact casualty insurance. In addition, 87 companies were registered by the Federal Government to transact casualty insurance but not fire insurance (19 Canadian, 6 British and 62 foreign). Of the companies registered to transact fire and/or casualty insurance, 60 were also registered to transact life insurance; 13 of these were registered for fire, life and casualty insurance and 47 for life and casualty but not fire insurance. It should be noted also that, in addition to the companies registered by the Federal Government to transact casualty insurance, there were 24 registered fraternal benefit societies transacting accident and sickness insurance, of which 21 also transacted life insurance.

As shown in Table 14, some fire and casualty insurance is transacted in Canada by companies that are provincially licensed only. These companies generally confine their operations to the province of incorporation but may be allowed to sell insurance in other provinces. Many of them are mutual organizations transacting only fire insurance on a county, municipal or parish basis.

Table 14 summarizes net premiums written and net claims incurred for the years 1958 and 1959 in the fields of fire insurance and casualty insurance in Canada. These data are presented on the basis of the supervising government authorities for the companies concerned. The table relates to insurance companies only; no data are included with respect to fraternal benefit societies.
