PART III.—ADMINISTRATIVE FUNCTIONS OF THE FEDERAL GOVERNMENT†

A special article presenting information on the administration and control of the financial affairs of the Federal Government appears in the 1956 Year Book at pp. 101-107.

Section 1.—Departments, Boards, Commissions, etc.

The following paragraphs indicate the functions of the various departments of government and the special boards and commissions in connection with the work of government.

Though it is not possible, owing to the limitations of space, to enumerate in this Section the details of each service or the divisions or sections of all departments, the main branches are given along with those services that differ in some quality from the larger class of subjects handled by a department. The work of many of these departments and boards is given in detail in later Chapters of this volume. The Index will be useful in locating required information.

*This Royal Commission was appointed in 1960 but was omitted from the list for that year published in the 1961 Canada Year Book.

† As at Jan. 31, 1962; any major changes taking place between that date and the time of going to press will be carried in an Appendix to this volume.
