

Volume Series

Reports in this Series represent the main results of the 1961 Census and may be ordered singly or in volume sets. They are prepared in such a way that they may be combined within a hard-covered binder (provided with the set) to form the complete subject matter of each Volume.

VOLUME I (PART 1)—POPULATION: GEOGRAPHICAL DISTRIBUTION

Includes reports showing population totals for geographical areas such as provinces, electoral districts, counties and census divisions, and municipal subdivisions; rural and urban distributions; historical tables on population growth; and reference maps.

VOLUME I (PART 2)—POPULATION: GENERAL CHARACTERISTICS

Includes reports showing population classifications by such basic characteristics as sex, age groups, marital status, origin, religion, birthplace, official language, mother tongue, citizenship, period of immigration, school attendance and schooling.

VOLUME I (PART 3)—POPULATION: CROSS-CLASSIFICATIONS OF CHARACTERISTICS

Includes reports showing cross-classifications of population by such characteristics as age groups and sex, ethnic groups and sex, and period of immigration and sex, to show marital status, birthplace, religious denomination, education and language distributions.

VOLUME II (PART 1)—HOUSEHOLDS AND FAMILIES

Includes reports showing data on size and composition of households and families, and cross-classifications of household and family data by characteristics of head.

VOLUME II (PART 2)—HOUSING CHARACTERISTICS

Includes reports showing housing data based on a 20-p.c. sample of dwellings, covering such characteristics as type of dwelling, number of rooms, rent, household facilities; and cross-classifications of dwelling attributes by characteristics of head.

Special Series

This Series contains some basic materials not included in the regular Volume Series and which relate for the most part to more detailed geographical areas, such as population by specified age groups for census subdivisions; population by specified origins for census subdivisions; population by specified religious denominations for census subdivisions; and population of unincorporated villages and settlements, with guide to locations.

Census Tract Series

Basic population and housing data will be issued for each of the larger cities (or metropolitan areas) according to census tracts (i.e., areas of approximate uniformity in population size and composition). Some 23 cities are included in the census-tract program: St. John's, Nfld.; Halifax, N.S.; Saint John, N.B.; Quebec, Montreal, Trois Rivières and Sherbrooke, Que.; Ottawa, Toronto, Hamilton, London, Windsor, Oshawa, Sudbury, Kingston and Kitchener, Ont.; Winnipeg, Man.; Regina and Saskatoon, Sask.; Calgary and Edmonton, Alta.; and Vancouver and Victoria, B.C. The publication of these reports will follow, for the most part, the Volume Series of reports on population and housing.
