Average domestic and farm consumption rose from 4,338 kwh. in 1959 to 4,489 kwh. in 1960. Among the provinces, the averages in 1960 varied from a low of 1,625 kwh. in Prince Edward Island to a high of 6,184 kwh. in Manitoba. For domestic and farm customers the average annual bill was \$71.75 in 1960 as against \$69.76 in 1959, an increase of 2.9 p.c.

Although many utilities do not keep records on farm customers separate from other domestic customers, the data reported on farm service indicate that the average consumption rose from 4,086 kwh. per customer in 1959 to 4,345 kwh. in 1960 and the average bill from \$93.05 to \$96.49.

**10.—Domestic and Farm Service by Electrical Utilities and Industrial Establishments,
1939, 1945 and 1958-60**
