**Waterways Expenditure and Revenue on Consolidated Fund Account.**—Expenditure under this heading (Tables 22 to 24) is mainly for the operation and maintenance of various facilities for water transport but, unfortunately, the line between operation and maintenance expenditure is not as finely drawn as is desirable. Revenue in connection with waterways of the Department of Transport, the Department of Public Works and the St. Lawrence Seaway Authority is shown in Table 25.

To facilitate water transportation, the Federal Government expends annually, in addition to the recurrent expenditure shown here, a considerable amount to cover deficits of the Canadian National (West Indies) Steamships Limited and of the National Harbours Board, and for mail subsidies and steamship subventions as shown in Table 27. Operating revenue and expenditure of facilities administered by the National Harbours Board are shown separately in Table 26.
